

Lifesize Share™

Truly Wireless Media Sharing

No cables or limits to your meetings. Lifesize Share eliminates the clutter and delivers a truly wireless solution for sharing your media.

With Lifesize Share, all you need is your browser and you're ready to go, and that includes guests, too. Passing cords and dongles from presenter to presenter is a thing of the past. Share what's on your screen or stream online videos.

It's a simple way to quickly add wireless capabilities to conference, training and huddle rooms throughout your offices. Use it as a standalone* device with your display, or connect it to your Lifesize® Icon™ or other video systems.

- Present from any laptop without special software downloads
- Share your screen — presentations, documents and more
- Share online media — video and audio — without compromising quality
- Share a file or stream video from your mobile phone
- Supports AirPlay®
- Ultrasonic laptop pairing for simple and secure room connection
- Multiuser sharing queue lets you quickly change presenters
- Easy setup allows for quick deployment throughout your offices
- Use any room display
- Directly connect to any video conferencing system
- Provides a secure, separate wireless access point for guests
- Automatic software updates
- Account management for control of all of the Lifesize Share devices on your network

*An internet connection is required.
